SUMMERY

I am Md. Ariful Islam. I am a non-CSS student. I have a dream to work at a multinational company. I always like to learn and experience new stuff.
I believe in personal development through continuous learning and efficient utilization of my knowledge. Looking for an organization where I would get the opportunity to show my skills, dedication.

TECHNICAL SKILLS

❖ **Expertise:** JavaScript, ES6, ReactJS, REST API, React Bootstrap, HTML5, CSS3,Material UI, JSON, Node.js, Express.js, MongoDB, SASS.

❖ **Familiar:** Redux, JQuery, React Native, Python.

❖**Tools:** Git, NPM, VS Code, Chrome Dev tool, Firebase, Netlify, Heroku.

MY PERSONAL PROJECT

Simple amazon website

Description :

- This is a full-stack web application.
- Clients can log in through firebase.
- Clients can order services and see the status of their ordered services.

- client will never be accepted on the admin page
- Admin can add new services and change the client ordered services status.
- Admin also can make a new admin
- A payment method system is also done before confirming the order

Technology :

I am using for this project (React, react-from-hook, react router, react-bootstrap, material-ui, js(ES6), NodeJS, ExpressJS, MongoDB, Firebase, Heroku)
